4% The Contractor shall have one lane open at the specified width in one direction during the actual construction of the concrete street. The direction of this particular lane will depend on the side of the street that is not being reconstructed at that particular time. For example, if the south side of the street is under construction, then the north side of the street shall be open to one-way traffic westbound. The Contractor may only work on one-half of the street at any one time. The Contractor shall set up and maintain the detour and construction signs according to the approved Traffic Detour Plans as deemed necessary. The Detour Plans for these blocks must include a detour route for SFMTA buses. See Subsection 3.3 MASS TRANSIT VEHICLES for more information.
